**2025  
Spring Fitness  
Schedule**

### **Upper Body / Core**

This strength building and muscle toning class features a series of familiar fitness-floor exercises and training methods in a pulse-pounding, chest-thumping format

### **Express Kickboxing**

A 30 minuet cardio workout that combines kickboxing movies with strength, agility and cardiovascular training.

### **Barbell Strength**

Weight training that targets each muscle group timed to music. This class will help you get lean and build muscle strength.

### **Butts & Guts**

A class dedicated to toning your abs and glutes with targeted movements of cardio. This class will focus on core strengthening to build muscles, in addition, it will also target your quads and hamstrings.

### **Cardio Resistance Training—CRT**

A mix of cardio and strength work using a variety of equipment for a total body workout.

### **Barre Core**

A short yet challenging workout that will target your core and upper body. Core strength will help with balance, posture and overall strength. This class will help you also improve your flexibility.

### **Muscle Mix**

A class that shapes, tones, and strengthens your entire body. A fast-paced class that focuses on each body part timed to music.

### **Power Yoga**

A traditional yoga class with a twist. Featured moves will increase flexibility strengthen muscle endurance and balance through specific poses and patterned breathing poses with shorter hold times and more Vinyasa flow movements.

### **Total Conditioning**

A mix of core and upper and lower body exercises designed to build muscle strength. A variety of equipment will be used along with body weight resistance.

### **Vinyasa Flow**

This class will be a flowing style which links breath and movement through a series of postures, balance, strength and flexibility. It also helps to cultivate mindfulness through a continuous flow.

### **Cardio Blast**

A Class Focused on Cardio, Toning & Core, with Low Impact Modifications
